INTRODUCTION

GUIDE TO GOING GLOBAL SERIES

To compete and be successful today, companies need to develop and scale their businesses globally. Each country presents its own set of unique laws, rules and regulations and business practices that companies must understand to be successful. In order to help clients meet the opportunities and challenges of expanding internationally, we have created a handy set of global guides that cover the basics companies need to know when going into and doing business in new countries. The Guide to Going Global series reviews business-relevant corporate, employment, intellectual property and technology, executive compensation, and tax laws in key jurisdictions around the world.

CORPORATE

The Guide to Going Global – Corporate has been created based on our research, our experience and feedback we have received from clients in both established and emerging businesses that have expanded internationally. We hope it will be a helpful resource for you.

The Guide to Going Global – Corporate covers corporate basics in 51 key jurisdictions across the Americas, Asia Pacific, Europe and the Middle East. We touch on a wide range of corporate issues for companies expanding internationally, including establishing a corporate presence and choice of entity, liability considerations, tax presence and tax filings, capital requirements, the formation process, director, officer and shareholder requirements, registration processes, office lease processes and possible exit strategies.

With more than 600 lawyers, DLA Piper’s global Corporate group is one of the largest in the world, with one of the widest geographical footprints of any global law firm and experience across the legal areas companies need as they expand internationally. With both global experience and local knowledge, we partner with our clients wherever they do business to find solutions and manage their risk in relation to their challenges and objectives.

While this guide provides high-level guidance, it is not a substitute for legal advice, and we encourage you to seek advice regarding the specific matters that concern you. If you wish to speak to any of our contributors, you may find their contact details at the end of the guide.

We hope you find this guide valuable, and we welcome your feedback.
