

Temporary permission regime for inbound passporting EEA investment funds

How to notify

May 2019

1 Introduction

In December 2017, the Government announced that, if necessary, it would introduce a temporary permissions regime (TPR) for inbound passporting EEA firms and funds.

If there is not an implementation period and the passporting regime falls away when the UK leaves the EU, the TPR will provide a backstop to ensure inbound funds can continue their UK business with minimal disruption.

It will allow inbound firms to continue operating in the UK within the scope of their current permissions for a limited period after exit day, while seeking full UK authorisation. It will also allow funds with a passport to continue temporarily marketing in the UK.

More information about the TPR can be found [on our website](#).

The following funds can use the regime:

- UCITS schemes
- Alternative Investment Funds (including EuVECAs, EuSEFs, ELTIFs and AIFs authorised as MMFs)

Fund managers will need to notify us of which of their funds they want to continue to market in the UK via our [Connect](#) system and this document provides detailed instructions for doing this.

Notifications will need to be submitted between 7 January 2019 and 30 October 2019 (inclusive of both dates).

Fund managers should submit their notification with a full list of the funds they wish to continue marketing in the UK after exit day. If fund managers think they will add funds to their notification before the window closes, they should wait until they have a full list before submitting it to us.

Once the notification window has closed, fund managers that have not submitted a notification for a fund will be unable to use the temporary permissions regime for this fund and will not be able to continue marketing the fund in the UK.

Before notifying, firms should take these steps to make the notification process as simple as possible:

- register for our [Connect](#) system
- fund managers should check which funds they are actively marketing in the UK and let us know as soon as possible, through their [national competent authority](#), of any changes.

Fund managers should note that if they have passports other than for the purposes of marketing funds in the UK (for example, a MiFID passport), they should also submit a firm temporary permission notification form, if appropriate. Please see our [guide to Connect for firms](#).

2 Start the Temporary Permission Regime notification

Logon to Connect and select **Start an Application** from the left-hand side of the Home screen.
